Supt Darbyshire,

This letter is intended to acknowledge receipt of the notice of intention to discharge documents I was served at my place of residence August 19th, 2013. I have requested Dr. Greg Passey, BC OSI Clinic, as my representative on the medical board and I have forwarded him the agreement form for his signature as directed. Dr. Passey is presently on leave but he has informed me he will participate as a board member and will return the signed agreement form for your attention as soon as possible.

As you are aware I am presently pursuing a civil action against Dr. Ian MACDONALD who was an employee of the RCMP, "E" Division Health Services and directly responsible / influential with respect to my medical treatment program. I sincerely believe Dr. MACDONALD has placed documents on my medical file that are dishonest, incorrect and that were intended to discredit my character and integrity. As the level of care Dr. MACDONALD provided me was nothing short of disgraceful I intend to dispute any documentation on my medical file that was authored by Dr. Ian MACDONALD. Further I will dispute any documents on my file that were written in response to any emails, reports, letters, notes that were communicated by Dr. MACDONALD.

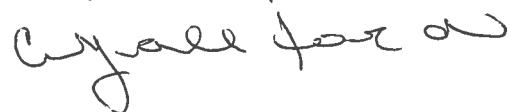

As my civil action against the RCMP and Dr. MACDONALD has been somewhat public, I wish to document my concerns related to the potential for a lack of impartiality with respect to the as yet unidentified medical board members. What steps are you taking in your role as the member responsible for striking the board, to ensure that the other medical practitioners who are board members are not in any way associated to, or have had any past working relationship with Dr. MACDONALD and / or "E" Division Health Services?

Please consider my request to participate in the medical board process as my testimony before the board will ensure my concerns related to the fairness of this process will be addressed and the board members will have the opportunity to question me on various aspects of my treatment plan.

Due to my civil action against a senior member of "E" Division Health Services and the RCMP, I intend to engage my lawyer, J. Barry Carter, as my representative in this discharge process. I am requesting that if there are any additional documents for service, the documents are directed to Mr. Carter at:
